INDEPENDENT AUDITOR'S REPORT

To the members of Liva Pharmaceuticals Limited

Report on the Audit of the Standalone Ind AS Financial Statements

Opinion

We have audited the accompanying Standalone Ind AS financial statements of Liva Pharmaceuticals Limited (the "Company"), which comprise the Balance sheet as at March 31, 2019, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Ind AS financial statements give the information required by the Companies Act, 2013 (the "Act"), in the manner so required and give a true and fair view in conformity with the accounting standards prescribed under section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS"), and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2019, the loss and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Standalone Ind AS financial statements in accordance with the Standards on Auditing ('SAs'), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Standalone Ind AS financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Ind AS financial statements for the current period. These matters were addressed in the context of our audit of the Standalone Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined that there are no key audit matters to communicate in our report.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the Standalone Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Ind AS and the accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting `and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone Ind AS financial statements, including the disclosures, and whether the Standalone Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied

with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Ind AS financial statements for the financial year ended March 31, 2019, and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

- 1. As required by the Companies (Auditor's Report) Order, 2016 (the 'Order'), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
- 2. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - (c) The Balance Sheet, the Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
 - (d) In our opinion, the aforesaid Standalone Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
 - (e) On the basis of the written representations received from the directors as on March 31, 2019 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2019 from being appointed as a director in terms of Section 164 (2) of the Act;
 - (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company with reference to these Standalone Ind AS financial statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure B" to this report;
 - (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as

amended in our opinion and to the best of our information and according to the explanations given to us:

- i. The Company does not have any pending litigation which would have impact on its financial position ;
- ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
- iii. During the year, the Company is not required to transfer any amount to the Investor Education and Protection Fund.

Annexure A to the Independent Auditor's Report

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report to the members of Liva Pharmaceuticals Limited of even date)

The Annexure referred to in Independent Auditor's Report to the members of the Company on the financial statements for the year ended March 31, 2019.

We report that:

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
 - (b) All fixed assets were physically verified by the management in the previous year in accordance with a planned programme of verifying them once in three years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
- (ii) The inventory has been physically verified by the management during the year. In our opinion, the frequency of verification is reasonable. No material discrepancies were noticed on such physical verification and no material discrepancies were noticed in respect of such confirmations.
- (iii) According to the information and explanations given to us, the Company has not granted any loans, secured or unsecured to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under section 189 of the Act. Accordingly, the provisions of clause 3(iii)(a), (b) and (c) of the Order are not applicable to the Company and hence not commented upon.
- (iv) In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of section 185 and 186 of the Act, with respect to the loans and investments made.
- (v) According to the information and explanations given to us, the Company has not accepted any deposit form the public within the meaning of section 73 to 76 of the Act and the Rules framed under. Therefore, the provision of clause 3(v) of the Order is not applicable.
- (vi) The Central Government has not prescribed the maintenance of cost records under section 148(1) of the Act, for any of the services rendered by the Company.
- (vii) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted/ accrued in the books of account in respect of undisputed statutory dues including provident fund, employee state insurance, income-tax, sales tax, value added tax, duty of customs, duty of excise, service tax, cess, goods and services tax and other material statutory dues have generally been regularly deposited during the year by the Company with the appropriate authorities.

- (b) According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, income tax, sales tax, value added tax, duty of customs, service tax, cess, goods and services tax and other material statutory dues were in arrears as at March 31, 2019, for a period of more than six months from the date they became payable.
- (c) Based on our examination of the records, and according to information and explanations given by the management, the Company has not defaulted in repayment of dues to the banks. The Company has not taken any loan from financial institution. The Company has not obtained any borrowing by way of debentures.
- (viii) In Based on our audit procedures performed for the purpose of reporting the true and fair view of the financial statements and according to information and explanations given by the management, we are of the opinion that the Company has not defaulted in repayment of dues to the banks. The company had not taken any loan from financial institution. The company has not obtained any borrowing by way of debentures.
- (ix) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practice in India, and according to the information and explanations given to us, no material fraud by the Company or on the Company by its officers or employees has been noticed or reported during the course of our audit.
- (x) According to the information and explanations given by the management, the managerial remuneration has been paid/provided in accordance with the requisite approvals mandated by the provisions of section 197 read with Schedule V to the Act.
- (xi) In our opinion, the Company is not a nidhi company. Therefore, the provisions of clause 3(xii) of the Order is not applicable to the Company.
- (xii) Based on our examination of records of the Company and according to the information and explanations given to us, the transactions with related parties are in compliance with the Provisions of Section 177 and 188 of the Act. The details of such related party transactions have been disclosed in the Ind AS Financial Statements as required by the applicable accounting standards.
- (xiii) The Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under review. Accordingly, provisions of clause 3(xiv) are not applicable to the Company.

- (xiv) Based on the examinations of the records and according to the information and explanations given by the management, during the year, the Company has not entered into any non-cash transactions with directors or persons connected with him. Accordingly, paragraph 3(xv) of the Order is not applicable.
- (xv) According to the information and explanations given to us, the provisions of section 45-IA of the Reserve Bank of India Act, 1934, are not applicable to the Company.

Annexure B to the Independent Auditor's Report

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of Liva Pharmaceuticals Limited of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Act

We have audited the internal financial controls over financial reporting of the Company as of March 31, 2019, in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the 'Guidance Note') issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Ahmedabad, Dated: May 27, 2019						

Note: 1-Company overview:

Liva Pharmaceuticals Limited ["the Company"] is incorporated with an object of the development, production, marketing and distribution of injectable formulations. The company is in the process of setting up injectable manufacturing facility at Village: Jarod, Taluka: Vaghodia, Vadodara.

The financial statements were authorised for issue in accordance with a resolution passed by the Board of Directors at their meeting held on May 27, 2019.

Note: 2-Significant Accounting Policies:

- A The following note provides list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented unless otherwise stated.
- 1 Basis of preparation:
 - A The financial statements are in compliance with Indian Accounting Standards [Ind AS] notified under the Companies [Indian
 - Accounting Standards] Rules, 2015, as amended and other relevant provisions of the Companies Act, 2013.
 - **B** For all periods up to and including the year ended March 31, 2016, the Company has prepared its financial statements in accordance with the accounting standards notified under the section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies [Accounts] Rules, 2014 [Indian GAAP].

Effective from April 1, 2016, the Company has adopted Ind AS as per Companies [Indian Accounting Standards] [Ind AS] Rules, 2015 as notified under section 133 of the Companies Act, 2013. The adoption was carried out in accordance with Ind AS 101,First-time Adoption of Indian Accounting Standards.

- C The financial statements have been prepared on historical cost basis, except for the following assets and liabilities which have been measured at fair value or revalued amount:
 - i Derivative financial instruments
 - ii Certain financial assets and liabilities measured at fair value [refer accounting policy regarding financial instruments]
 - iii Defined benefit plans
 - iv Contingent consideration

2 Use of Estimates:

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of income and expenses during the period. Application of accounting policies that require critical accounting estimates involving complex and subjective judgments are provided below. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

Critical judgments:

a Taxes on Income:

Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid/ recovered for uncertain tax positions.

b Employee benefits:

Significant judgments are involved in making judgments about the life expectancy, discounting rate, salary increase, etc. which significantly affect the working of the present value of future liabilities on account of employee benefits by way of defined benefit plans.

c Impairment of property, plant and equipment and investments:

Significant judgment is involved in determining the estimated future cash flows from the Investments, Property, Plant and Equipment and Goodwill to determine their value in use to assess whether there is any impairment in their carrying amounts as reflected in the financials.

d Contingent liabilities:

Significant judgment is involved in determining whether there is a possible obligation, that may, but probably will not require an outflow of resources.

Critical estimates:

a Property, Plant and Equipment:

Property, Plant and Equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. Management reviews the residual values, useful lives and methods of depreciation of Property, Plant and Equipment at each reporting period end and any revision to these is recognised prospectively in current and future periods. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in

technology. 3 Foreign Currency Transactions:

- The Company's financial statements are presented in Indian Rupees [INR], which is the functional and presentation currency.
- A The transactions in foreign currencies are translated into functional currency at the rates of exchange prevailing on the dates of transactions.
- B Foreign Exchange gains and losses resulting from settlement of such transactions and from the translation of monetary assets and liabilities
- denominated in foreign currencies at the year end exchange rates are recognised in the Statement of Profit and Loss.

Note: 2-Significant Accounting Policies-Continued:

4 Revenue Recognition:

С

5

- A The Company has applied Ind AS 115 Revenue from Contracts with Customers which is effective for an annual period beginning on or after
 - April 1, 2018. The following is the significant accounting policy related to revenue recognition under Ind AS 115.
 - a Service Income:

Service income is recognised as per the terms of contracts with the customers when the related services are performed as per the stage of completion or on the achievement of agreed milestones and are net of indirect taxes, wherever applicable.

- B Goods and Service Tax [GST] is not received by the Company on its own account. Rather, it is tax collected on value added to the goods by the Company on behalf of the government. Accordingly, it is excluded from revenue.
 - The specific recognition criteria described below must also be met before revenue is recognised:

a Interest Income:

For all debt instruments measured either at amortised cost, interest income is recorded using the effective interest rate [EIR]. EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses.

b Other Income:

- Other income is recognised when no significant uncertainty as to its determination or realisation exists.
- Taxes on Income:
 - Tax expenses comprise of current and deferred tax.

A Current Tax:

- a Current tax is measured at the amount expected to be paid on the basis of reliefs and deductions available in accordance with the provisions of the Income Tax Act, 1961. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.
- b Current tax items are recognised in co-relation to the underlying transaction either in Statement of Profit and Loss, OCI or directly in equity.

B Deferred Tax:

- a Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.
- b Deferred tax liabilities are recognised for all taxable temporary differences.
- c Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, the carry forward of unused tax credits and unused tax losses can be utilized.
- d The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.
- e Deferred tax assets and liabilities are measured at the tax rates [and tax laws] that have been enacted or substantively enacted at the reporting date and are expected to apply in the year when the asset is realised or the liability is settled.
- f Deferred tax items are recognised in co-relation to the underlying transaction either in OCI or directly in equity.
- g Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities.

6 Property, Plant and Equipment:

A Property, Plant and Equipment are stated at historical cost of acquisition/ construction less accumulated depreciation and impairment loss. Historical cost [Net of Input tax credit received/ receivable] includes related expenditure and pre-operative & project expenses for the period up to completion of construction/ assets are ready for its intended use, if the recognition criteria

are met and the present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset, if the recognition criteria for a provision are met. The foreign exchange loss or gain attributable to Property, Plant and Equipment is adjusted to the cost of respective Property, Plant and Equipment. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance costs are charged to the statement of profit and loss during the reporting period in which they are incurred, unless they meet the recognition criteria for capitalisation under Property, Plant and Equipment.

On transition to Ind AS, the Company has elected to continue with the carrying value of all its Property, Plant and Equipment recognised As at March 31 April 1, 2015 measured as per the previous GAAP and use that carrying value as the deemed cost of the Property, Plant and Equipment.

- **B** Where components of an asset are significant in value in relation to the total value of the asset as a whole, and they have substantially different economic lives as compared to principal item of the asset, they are recognised separately as independent items and are depreciated over their estimated economic useful lives.
- C Depreciation on tangible assets is provided on "straight line method" based on the useful lives as prescribed under Schedule II of the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used. However, management reviews the residual values, useful lives and methods of depreciation of Property, Plant and Equipment at each reporting period end and any revision to these is recognised prospectively in current and future periods.
- D Depreciation on impaired assets is calculated on its reduced value, if any, on a systematic basis over its remaining useful life.
- E Depreciation on additions/ disposals of the fixed assets during the year is provided on pro-rata basis according to the period during which assets are used.
- F Where the actual cost of purchase of an asset is below INR 10,000/-, the depreciation is provided @ 100%.
- G Capital work in progress is stated at cost less accumulated impairment loss, if any
- H An item of Property, Plant and Equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset [calculated as the difference between the net disposal proceeds and the carrying amount of the asset] is included in the Statement of profit and loss when the asset is derecognised.

Note: 2-Significant Accounting Policies-Continued:

7 Intangible Assets:

- A Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses.
- B Internally generated intangibles are not capitalised and the related expenditure is reflected in the Statement of profit and loss in the period in which the expenditure is incurred.
- C Capitalised cost incurred towards purchase/ development of software is amortised using straight line method over its useful life of four years as estimated by the management at the time of capitalisation.
- **D** Intangible assets with indefinite useful lives are not amortised, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.
- E An item of intangible asset initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset [calculated as the difference between the net disposal proceeds and the carrying amount of the asset] is included in the Statement of profit and loss when the asset is derecognised.

8 Borrowing Costs:

- A Borrowing costs consist of interest and other borrowing costs that are incurred in connection with the borrowing of funds. Other borrowing costs include ancillary charges at the time of acquisition of a financial liability, which is recognised as per EIR method. Borrowing costs also include exchange differences to the extent regarded as an adjustment to the borrowing costs.
- **B** Borrowing costs that are directly attributable to the acquisition/ construction of a qualifying asset are capitalised as part of the cost of such assets, up to the date the assets are ready for their intended use.

9 Impairment of Assets:

The Property, Plant and Equipment and Intangible assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, the assets are grouped at the lowest levels for which there are separately identifiable cash flows which are largely independent of the cash inflows from other assets or groups of assets [cash generating units]. Non-financial assets other than Goodwill that suffered an impairment loss are reviewed for possible reversal of impairment at the end of each reporting period. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

10 Inventories:

Inventories are valued at the lower of cost and net realisable value.

- Costs incurred in bringing each product to its present location and condition are accounted for as follows:
 - A Raw Materials, Packing Materials, are valued at lower of cost and net realisable value.
 - B Cost [Net of Input tax credit availed] of Raw Materials, Packing Materials is determined on Moving Average Method.
- Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

11 Cash and Cash Equivalents:

Cash and Cash equivalents for the purpose of Cash Flow Statement comprise cash and cheques in hand, bank balances, demand deposits with banks where the original maturity is three months or less and other short term highly liquid investments.

12 Leases:

As a lessee:

The determination of whether an arrangement is [or contains] a lease is based on the substance of the arrangement at the inception of the lease.

Lease under which the Company assumes potentially all the risk and rewards of ownership are classified as finance lease. When acquired, such assets are capitalised at fair value or present value of the minimum lease payment at the inception of the lease, whichever is lower. Lease payments under operating leases are recognised as an expense on straight line basis in the Statement of Profit and Loss over the lease term, unless the payments are structured to increase in line with expected general inflation to compensate lessor's expected inflationary cost increases.

13 Provisions, Contingent Liabilities and Contingent Assets:

- A Provisions are recognised when the Company has a present obligation as a result of past events and it is probable that the outflow of resources will be required to settle the obligation and in respect of which reliable estimates can be made. A disclosure for contingent liability is made when there is a possible obligation, that may, but probably will not require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision/ disclosure is made. Provisions and contingencies are reviewed at each balance sheet date and adjusted to reflect the correct management estimates. Contingent assets are not recognised but are disclosed separately in financial statements.
- B If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability.

Note: 2-Significant Accounting Policies-Continued:

14 Employee Benefits:

A Short term obligations:

Liabilities for wages and salaries, including leave encashment that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured by the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

B Long term employee benefits obligations:

a Leave Wages and Sick Leave:

The liabilities for earned leave and sick leave are not expected to be settled wholly within 12 months period after the end of the period in which the employees render the related service. They are therefore, measured at the present value of expected future payments to be made in respect of services provided by employees upto the end of the reporting period using the projected unit credit method as determined by actuarial valuation, performed by an independent actuary. The benefits are discounted using the market yields at the end of reporting period that have the terms approximating to the terms of the related obligation. Gains and losses through re-measurements are recognised in Statement of profit and loss.

b Defined Benefit Plans:

i Gratuity:

The Company operates a defined benefit gratuity plan with contributions to be made to a separately administered fund through Life Insurance Corporation of India through Employees Group Gratuity Plan. The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plan is the present value of the defined benefit plan obligation at the end of the reporting period less the fair value of the plan assets. The liabilities with regard to the Gratuity Plan are determined by actuarial valuation, performed by an independent actuary, at each balance sheet date using the projected unit credit method. The present value of the defined benefit obligation denominated in INR is determined by discounting the estimated future cash outflows by reference to the market yields at the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discounting rate to the net balance of the defined benefit obligation and the fair value of plan assets. Such costs are included in employee benefit expenses in the statement of Profit and Loss. Re-measurement gains or losses arising from experience adjustments and changes in actuarial assumptions are recognised immediately in the period in which they occur directly in "other comprehensive income" and are included in retained earnings in the Statement of changes in equity and in the balance sheet. Re-measurements are not reclassified to profit or loss in subsequent periods.

The Company recognises the following changes in the net defined benefit obligation as an expense in the Statement of profit and loss: i Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non routine settlements; and ii Net interest expense or income.

c Defined Contribution Plans - Provident Fund Contribution:

Eligible Employees of the Company receive benefits from a provident fund, which is a defined contribution plan. Both the eligible employee and the company make monthly contributions to the provident fund plan equal to a specified percentage of the covered employee's salary. Amounts collected under the provident fund plan are deposited in a government administered provident fund. The companies have no further obligation to the plan beyond its monthly contributions. Such contributions are accounted for as defined contribution plans and are recognised as employee benefits expenses when they are due in the Statement of profit and loss.

15 Financial Instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

A Financial Assets:

a Initial recognition and measurement:

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place [regular way trades] are recognised on the settlement date, i.e., the date that the Company settles to purchase or sell the asset.

b Subsequent measurement:

For purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments at amortised cost:
 - A 'debt instrument' is measured at the amortised cost if both the following conditions are met:
 - The asset is held with an objective of collecting contractual cash flows
 - Contractual terms of the asset give rise on specified dates to cash flows that are "solely payments of principal and interest" [SPPI] on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate [EIR] method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the Statement of Profit and Loss. The losses arising from impairment are recognised in the Statement of profit and loss.

ii Debt instruments at fair value through other comprehensive income [FVTOCI]:

- A 'debt instrument' is classified As at March 31 the FVTOCI if both of the following criteria are met:
 - The asset is held with objective of both for collecting contractual cash flows and selling the financial assets
 The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well As at March 31 each reporting date at fair value. Fair value movements are recognized in the OCI. However, the Company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the Statement of Profit and Loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to Statement of Profit and Loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

iii Debt instruments and derivatives at fair value through profit or loss [FVTPL]:

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization As at March 31 amortized cost or as FVTOCI, is classified As at March 31 FVTPL.

Instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit and Loss.

Note: 2-Significant Accounting Policies-Continued:

iv Equity instruments:

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified As at March 31 FVTPL. For all other equity instruments, the Company may make an irrevocable election to present subsequent changes in the fair value in other comprehensive income. The Company has made such election on an instrument by instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument As at March 31 FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to Statement of Profit and Loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit and Loss.

c Derecognition:

A financial asset [or, where applicable, a part of a financial asset] is primarily derecognised [i.e. removed from the Company's balance sheet] when: i The rights to receive cash flows from the asset have expired, or

iii The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either [a] the Company has transferred substantially all the risks and rewards of the asset, or [b] the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained. When the Company has transferred the risk and rewards of ownership of the financial asset, the same is derecognised.

d Impairment of financial assets:

In accordance with Ind AS 109, the Company applies expected credit loss [ECL] model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a Financial assets that are debt instruments, and are measured at amortised cost
- b Trade receivables or any contractual right to receive cash or another financial asset
- c Financial assets that are debt instruments and are measured As at March 31 FVTOCI

The Company follows 'simplified approach' for recognition of impairment loss allowance on Point b above.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it requires the Company to recognise the impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive [i.e., all cash shortfalls], discounted at the original EIR.

ECL impairment loss allowance [or reversal] recognized as income/ expense in the Statement of profit and loss. The balance sheet presentation for various financial instruments is described below:

Financial assets measured As at March 31 amortised cost and contractual revenue receivables: ECL is presented as an allowance , i.e., as an integral part of the measurement of those assets in the balance sheet, which reduces the net carrying amount. Until the

asset meets write-off criteria, the Company does not reduce impairment allowance from the gross carrying amount. For assessing increase in credit risk and impairment loss, the Company combines financial instruments on the basis of shared credit risk

characteristics.

B Financial Liabilities:

a Initial recognition and measurement:

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

b Subsequent measurement:

Subsequently all financial liabilities are measured as amortised cost, using EIR method. Gains and losses are recognised in Statement of profit and loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Statement of profit and loss.

c Derecognition:

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of profit and loss.

Note: 2-Significant Accounting Policies-Continued:

C Reclassification of financial assets:

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. Such changes are evident to external parties. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model as per Ind AS 109.

D Offsetting of financial instruments:

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

16 Fair Value Measurement:

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

a In the principal market for the asset or liability, or

b In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

a Level 1 — Quoted [unadjusted] market prices in active markets for identical assets or liabilities

b Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

c Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation [based on the lowest level input that is significant to the fair value measurement as a whole] at the end of each reporting period.

17 Earnings per Share:

Basic earnings per share are calculated by dividing the net profit or loss [excluding other comprehensive income] for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for events such as bonus issue, bonus element in a right issue, shares split and reserve share splits [consolidation of shares] that have changed the number of equity shares outstanding, without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit or loss [excluding other comprehensive income] for the year attributable to equity share holders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

18 Standards issued but not yet effective:

The Ministry of Corporate Affairs has issued Companies [Indian Accounting Standards] Amendment Rules, 2019 and Companies [Indian Accounting Standards] Second Amendment Rules on March 30, 2019, which notified the following standards and amendments to Ind AS applicable effective from April 1, 2019:

Ind AS 116 – Leases:

Ind AS 116 will replace the existing leases standard, Ind AS 17 Leases. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. The standard introduces a single lease accounting model, requiring lessees to recognize right-of-use assets for granted rights of use and corresponding lease liabilities. However, Ind AS 116 contains the option of exercising exemptions for the recognition of short-term leases and those pertaining to low-value assets.

The Company will adopt Ind AS 116 effective from April 1, 2019, the Company will apply the standard to its leases, retrospectively, without restating the comparative figures. On the date of transition, the Company will be using the practical expedient provided by the standard and therefore, will not reassess whether a contract, is or contains a lease, at the date of initial application. On the date of initial application, the Company will recognise a lease liability measured at the present value of the remaining lease payments, using the incremental borrowing rate as of that date and right-of-use asset will be measured at the amount equal to lease liability adjusted for accrual and prepayment. Initial direct costs will not be taken into account in the measurement of the right-of-use asset as of the date of first-time application. In accordance with the standard, the Company will elect not to apply the requirements of Ind AS 116 to short-term leases for which the underlying asset is of low value.

The Company is in the process of evaluating the impact of Ind AS 116.

Note: 2-Significant Accounting Policies-Continued:

LIVA PHARMACEUTICALS LIMITED

Ind AS 12 – Income Taxes:

- A The Ministry of Corporate Affairs has notified Ind AS 12, Appendix C, Uncertainty over Income Tax Treatments which is to be applied while performing the determination of taxable profit [or loss], tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under Ind AS 12. According to the appendix, companies need to determine the probability of the relevant tax authority accepting each tax treatment, or group of tax treatments, that the companies have used or plan to use in their income tax filing which has to be considered to compute the most likely amount or the expected value of the tax treatment when determining taxable profit [tax loss], tax bases, unused tax losses, unused tax credits and tax rates. The standard permits two possible methods of transition:
 - a Full retrospective approach Under this approach, Appendix C will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8, Accounting Policies, Changes in Accounting Estimates and Errors, without using hindsight, and
 - b Retrospectively with cumulative effect of initially applying Appendix C recognised by adjusting equity on initial application, without adjusting comparatives.

The effective date for adoption of Ind AS 12 Appendix C is annual periods beginning on or after April 1, 2019. The Company will adopt the standard on April 1, 2019 and has decided to adjust the cumulative effect in equity on the date of initial application i.e. April 1, 2019 without adjusting comparatives.

The effect on adoption of Ind AS 12 Appendix C would be insignificant in the standalone financial statements.

B The Ministry of Corporate Affairs issued amendments to the guidance in Ind AS 12, Income Taxes, in connection with accounting for dividend distribution taxes.

The amendment clarifies that an entity shall recognise the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity recognised those past transactions or events.

Effective date for application of this amendment is annual period beginning on after April 1, 2019. The Company is in the process of evaluating the impact.

Ind AS 19 - Employee Benefits:

The Ministry of Corporate Affairs issued amendments to Ind AS 19, Employee Benefits, in connection with accounting for plan amendments, curtailments and settlements.

The amendments require an entity:

- a To use updated assumptions to determine current service cost and net interest for the remainder of the period after a plan amendment, curtailment; and
- b To recognise in profit or loss as part of past service cost, or a gain or loss on settlement, any reduction in a surplus, even if that surplus was not previously recognised because of the impact of the asset ceiling.

Effective date for application of this amendment is annual period beginning on or after April 1, 2019. The Company is in the process of evaluating the impact.

Risk Management:						
	valains the sources of risk	which the optimic	ovpocod to and			
The Company's activities expose it to market risk, liquidity risk and credit risk. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the related impact in the financial statements.						
The Company's risk management is done in close co-ordination with the board of director						

a Credit risk:

Credit risk arises from the possibility that counter party may not be able to settle its obligations as agreed. The Company is exposed to credit risk from investment in preference shares measured at amortised cost, loans and advances to related parties, trade receivables, bank deposits and other financial assets. The Company periodically assesses the financial reliability of the counter party taking into account the financial condition, current economic trends, analysis of historical bad debts and ageing of accounts receivable. Individual customer limits are set accordingly.

i Trade Receivable: The Company trades with recognized and credit worthy third parties. It is the Company's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an on-going basis with the result that the Company's exposure to bad debts is not significant.

ii There are no significant credit risks with related parties of the Company.

b Liquidity risk:

- a Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due. Due to the nature of the business, the Company maintains flexibility in funding by maintaining availability under committed facilities.
- b Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. The Company takes into account the liquidity of the market in which it operates. In addition, the Company's liquidity management policy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

LIVA PHARMACEUTICALS LIMITED Notes to the Financial Statements

Note: 34-Financial Risk Management:-Continued: Maturities of financial liabilities:

The tables below analyse the Company's financial liabilities into relevant maturity groupings based on their contractual maturities for

all non-derivative financial liabilities. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within

12 months equal their carrying balances as the impact of discounting is not significant

		INR-Thousand

c Foreign currency risk:

The Company is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the US Dollar and Euro. Foreign exchange risk arises from recognised assets and liabilities denominated in a currency that is not the Company's functional currency. The Company's operations in foreign currency creates natural foreign currency hedge. This results in insignificant net open foreign currency exposures considering the volumes and operations of the Company.

Sensitivity:

The sensitivity of profit or loss and equity to changes in the exchange rates arises mainly from foreign currency denominated financial instruments:

	INR-Thousand

d Interest rate risk:

Liabilities:

The Company's policy is to minimise interest rate cash flow risk exposures on long-term financing. As at March 31 March 31, 2019, the Company

is exposed to changes in market interest rates through bank borrowings at variable interest rates.

Sensitivity [*]:

Below is the sensitivity of profit or loss and equity changes in interest rates:
