

Zydus receives final approval from the USFDA for Ziprasidone Hydrochloride Capsules

Ahmedabad, 23 August 2017

Zydus Cadila has received the final approval from the USFDA to market Ziprasidone Hydrochloride Capsules in strengths of 20 mg, 40 mg, 60 mg, and 80 mg. Ziprasidone, an antipsychotic medication, is used to treat schizophrenia and the manic symptoms of bipolar disorder (manic depression). The drug will be manufactured at the group's formulations manufacturing facility at the Pharma SEZ, Ahmedabad.

The group now has more than 140 approvals and has so far filed over 300 ANDAs since the commencement of the filing process in FY 2003-04.
