

Zydus receives final approval from the USFDA for Acamprosate Calcium Delayed-Release Tablets

Ahmedabad, 27 May 2017

Zydus Cadila has received the final approval from the USFDA to market Acamprosate Calcium Delayed-Release Tablets, 333 mg. This medication is used for maintenance of abstinence from alcohol in patients with alcohol dependence.

The drug will be produced at the group's formulations manufacturing facility at Baddi.

The group now has more than 115 approvals and has so far filed over 300 ANDAs since the commencement of the filing process in FY 2003-04.
