

Zydus receives tentative approval from the USFDA for Tofacitinib Tablets

Ahmedabad, 6 April, 2019

Zydus Cadila has received the tentative approval from the USFDA to market Tofacitinib Tablets (US RLD – Xeljanz® Tablets), 5 mg. Tofacitinib is used alone or with other medications (such as methotrexate) to treat moderate to severe forms of rheumatoid arthritis. It helps to decrease pain, tenderness and swelling in the joints. It will be manufactured at the group's formulations manufacturing facility at Moraiya, Ahmedabad.

The group now has 260 approvals and has so far filed over 350 ANDAs since the commencement of the filing process in FY 2003-04.

About Zydus Cadila

Zydus Cadila is an innovative, global pharmaceutical company that discovers, develops, manufactures and markets a broad range of healthcare therapies. The group employs over 23,000 people worldwide and is dedicated to creating healthier communities globally. Zydus aspires to be a research-based pharmaceutical company by 2020.
